exciting MMA fans network in the world. The
future of Sports is in its digitalization.
MMAAON is becoming a global hub for MMA.

OUR VISION

OUR VISION

Our vision is to give more power to the audience; MMAON will digitize the stadium and make combat sports more interactive and engaging for the fanbase. We bring the fan closer to the fighter, to the fight and to the sport - they become a true insider. Our innovative and customized features give the fan a unique experience.

There can be no doubt that martial arts popularity is increasing rapidly and there is no question that technology has deeply transformed sports as a whole.

We decided that now is the time to give the fans what they deserve; more power - before/after the fight and especially during the actual fight - by way of voting features spiced up with innovative AI modules.

We're implementing gamification features to empower the fans to dictate the game. We want to harness the fan's passion for the sport and not only encourage them to watch MMA fights, but by making them feel heard and valued by giving them an active role in the organization and fighters' careers. MMAON is a career accelerator for fighters by providing them access to MMA organizations, fans, and sponsors worldwide. For the fans, the close interactions with athletes provided in MMAON, allows them to experience being a manager and help create future MMA superstars. Sponsors and MMA organizations gain instant access to a global database of fighters and fans providing them with a new digital market and sponsorship potential. MMAON enables each stakeholder to focus on their core business while allowing the platform to connect them all together and help them grow both digitally and in real life.

We embark on this journey together!

MMA is ON!

MMAON IS BECOMING A GLOBAL HUB FOR MMA

MARKET POTENTIAL

MMA is the world's third most popular sport, behind soccer and basketball. There are 551 million people interested in MMA (soccer has 901 million fans). Nearly 85% of the audience is outside the U.S.

**551
MILION**

people interested in MMA
(soccer has 901 million fans)

**NEARLY
85%**

of the audience is outside the U.S.
(Brazil has shown strong growth by adding nearly 8 million fans over the past three years.)

The UFC has been the beneficiary of much of the growth of the sport, and it developed global sporting superstars such as Conor McGregor and Khabib Nurmagomedov.

The current state of fan engagement, if there is any, is on a completely primal level. Instagram and Facebook are the most intimate connection between fans and fighters and the best way to measure a fighter's popularity. It is the only way for fans, sponsors, and event organizers to support and follow the fighter.

DIGITALIZATION

By not actively engaging the fan into the sport, many potential fans get lost, and the ones that are present, only get the basic entertainment – buying a ticket and watching the fight at the arena or via broadcasting.

Considering we live in the era of digitalization, the near absence of any digital entertainment by MMA organizations shows there is an opportunity for technology to disrupt this industry.

In the last few years, there has been a tremendous growth in generic social networks with a flood of information, most of which users cannot filter to fit their subjects of interest. Such growth has created an excessive amount of noise! Furthermore, it has prompted sports fans to search for niche social networks adjusted to their specific desires. There is a need not only for filtered and tailored sports related information but the ability to interact with like-minded users, get access to a special experience (such as meeting a sports star) and purchasing personalized merchandise and tickets. 43% of fans said that the consumer motivation to like or follow a brand is because they were offered a contest where they can win a prize related to the sport. But let's be honest, who doesn't want to be rewarded. For a fan, MMAON is like winning a prize all the time. Imagine being rewarded for what you love most – supporting your favorite fighter or organization. MMAON provides a holistic sports fan experience which will bring fans to the platform making it the perfect place for them, and by extension for the fighters, sponsors and organizations as well. Each benefits, and each grows; themselves and the sport as a whole!

The lack of digitalization also hurts fighters. Currently, fighters have to be stars in the ring or cage for the MMA organization to sell them. Fighters don't have the opportunity to build a following outside the ring. The primary problem for non-U.S. MMA organizations isn't finding talent, it is exposing their fighters to more fans and sponsors.

SOLUTION

FANS GET NEW WAYS OF INTERACTING WITH THE FIGHTERS AND THE SPORT.

MMAON connects fighters, fans, sponsors and organizations to create opportunities for interaction and growth.

Fighters get new profiles and exposure channels that combine structured data and popularity scores (fan feedback, number of interactions, and performance scores - wins, training results, smart gloves data, etc.) to calculate comparable popularity and performance score for the purpose of establishing new rankings. MMAON allows fighters gain additional revenue by selling their own merchandize (gloves, fan ware, ... or offering lessons) through our integrated feature MMARKET which will enable fans to purchase goods and special experiences with our fan tokens or other, conventional means of payment.

Fans get new ways of interacting with the fighters and the sport. New interactions include voting for upcoming fights, liking/disliking fighter activity, fundraising fighters, chat functions for interactions with fighters and organizations, donating options, cheering their favorite fighters, requesting matches between fighters of their choice, on fights with cryptocurrencies, and accessing detailed fighter data.

Sponsors can identify matches for the promotion of their products according to each fighter's fan base and popularity score, promote their products through a fighter's platform profile, and call upon fans to support a fight between two fighters.

Organizations get a supplemental revenue stream by quickly offering their events globally as pay-per-view options outside their own regions. This allows local organizations to instantly become truly global without incurring additional expenses.

MMAON with its superb technical support team, will have easy integration options that will enable others to integrate their organizations onto the platform.

MMAON with its unique digitalization features, enables MMAOs from different regions to keep their independence while creating a super MMA league with the largest global fan base.

THE FUTURE OF SPORTS IS IN ITS DIGITALIZATION

Each organization on the platform gains access to the fans, sponsors, and fighters of other organizations on the platform, as well as all platform features (e.g., voting, ranking players, data analysis, pay-per-view, etc.). In addition, fighters and sponsors gain interaction with fans from all member MMAOs. Lastly, fans and sponsors can support new talents from outside their own region.

With MMAON's tokenization features, it can also become the first real deal connecting blockchain with MMA.

The future of sports is in its digitalization. MMAON brings the fan closer to the athlete, the fight, and to the sport - they become a true insider, and innovative and customized features give them a unique experience. The platform upgrades the current MMA experience by implementing gamification features to empower the fans. Fans can take part before, during, and after the fight. They are no longer passive observers of the sport but can take an active role in a fighter's career.

The gamification features of MMAON empower fans to take part in the action, provide exposure of fighters to fans, and open marketing opportunities to sponsors to use the fan-fighter interactions to promote their products. All will become a crucial part; before, during, and after the fight.

MMAON is a career accelerator for MMA fighters by providing them access to MMA organizations, fans, and sponsors worldwide. And for fans, the close interactions with athletes provided in MMAON allows them to experience being a manager and help create future superstars.

MMAONs built-in chat, group chat, messaging, photo-sharing, donation, call, and other functions allow fans, fighters, sponsors and organizations to develop an in-depth relationship unprecedented for the sport and the sports world as a whole, revolutionizing the way we all interact and grow.

OUR MISSION IS TO ...

- connect fans, fighters, sponsors and organizations
- empower all stakeholders to make their voices count
- expand the MMAON solution among high-quality MMAOs
- build big MMA communities and give them a reason to stay
- to conquer the MMA world with the most diverse, vast, and exciting MMA playing field
- enable MMA to live up to its full potential by embracing the digital era and offering an experience fans and fighters deserve!

BY OVERCOMING PROBLEMS SUCH AS ...

- too many sites to follow
- losing time to stay updated
- news you don't want to see
- fans are not rewarded
- organizations don't know how to engage fans
- losing money on untraceable tickets
- no way to get close to your favorite fighters
- no global fan community

MMAON EMPOWERS FANS TO:

- Become a matchmaker! - Vote for upcoming fight cards. Registered fans can vote for the fighters they want to see in upcoming fights.
- Influence the sport! - Become MMA influencers. With their increasing activity, fans will receive influencer scores and gain more power on the platform and open themselves new possibilities of being engaged in MMA.
- Build superstars! - Promote fighter profiles by taking actions that impact a fighter's popularity score on the platform. A high popularity score increases a fighter's value to the sport and the sponsors.
- Shape the future! - Choose which rookie fighters become stars. With an MMAON profile, a fighter is introduced to fans and sponsors. After achieving a certain popularity score, the rookie will get a chance to become a star.
- Support! - Tip fighters. Fans will be able to tip fighters with cryptocurrencies and financially support their development.
- Analyse! - Follow live fighting data with the help of smart MMA gloves that record the fighters' heart rate, energy level, punch number, punch strength, accuracy, etc.
- Ticketing - Buy tickets using innovative blockchain solutions to provide ease of access, less paper consumption and prevention of counterfeit ticketing.

MMAON EMPOWERS FANS TO:

- Crowdfund! - Open “want to see a fight” funding. Fans can initiate a request for funding of a fight they want to see. According to certain rules (popularity and performance scores of the involved fighters and sponsors), an MMAO can chose to organize the fights.
- Personalize - Fans receive results and highlight videos of their favorite stars.
- Train – Fans can pay fighters to work up training programs for them and give them online instructions through the platform.
- Become opinion makers - Fans will be incentivized to contribute their opinions, articles, other content as well as evaluate content of like-minded users by sharing and liking their stories. For each action, approved by MMAONs editorial system, fans will be rewarded with points. Points can either be converted to tokens or can be used for climbing the contributors’ ranks which ultimately enables a proactive fan to get published on the profile of the fighter or organization about which they are blogging.
- **Be rewarded in MMAON tokens** will encourage organizations to reward their top fans by offering them special deals ranging from tickets to merchandize.

MMAON PROVIDES THE FIGHTERS:

- Fighters get new personalised profiles which include their match and training statistics, along with integrated social media and interactive features.
- Interaction with fans through posting videos, training session performance, photos, stories, comments on other fights, current diets, and fan chats. These interactions increase the fighter's popularity score. If the fighter receives a sponsor, the sponsor can promote its products in the fighter's profile.
- Gain exposure and visibility among fans, managers, and sponsors by increasing performance and popularity scores. A fighter can pitch fans to open a "want to see a fight" funding or directly challenge another fighter.
- Earning new sponsors, getting fighting opportunities, increasing value, receiving financial support from fans, etc.
- Gain instant exposure to a global network of MMAOs increasing their fighting potential.
- A new source of revenue by giving them access to our global MMARKET which allows them to supplement their income even when they are not in the ring.
- The use of smart MMA gloves for tracking, collecting and analysing data about performance, health, etc.

MMAON ENABLES SPONSORS TO:

- Access detailed data of fighters.
- Open their own 'crowdfunded fight' by way of engaging fans to select an upcoming fight. This draws fans closer to the fight, encouraging them to buy tickets, products and/or pay per view
- Sponsor their products, create brand loyalty with fans, and discovering consumer preferences.
- Publish calls for fighters by inviting fighters to receive sponsorship if they achieve certain goals such as a minimum fanbase size or popularity score.
- Gain new brand ambassadors. Brands continually look for ways to creatively enhance their messages, gain new brand ambassadors, and engage with micro-influencers in their communities.
- Personalized offers to fans with selected products.

MMAON ENABLES ORGANIZATIONS TO:

- Gain access to a detailed global database of fighters – time is money!
- Stop losing money on untraceable tickets.
- Build their brand by truly engaging with a global fan community.
- Reach their true fans directly and to offer them special deals ranging from tickets to merchandise, increasing their understanding of the fans wants and needs.

HIGH TECH FUTURE

We will encourage fighters to use smart MMA gloves in training sessions and to post the data to their profiles for fans to see. The gloves can be used in fight events along with live data posting (punch accuracy, punch power, heart rate, energy level, etc.). On the platform, fans can read the data as well as play with fun features. Beyond the entertainment value, smart gloves provide valuable health data. Medical teams and referees can supervise a fighter's health throughout a fight and prevent severe injuries.

In the future, additional augmented/virtual reality and 3D technology will be implemented, providing an immersive experience for the fans.

MMAON is a blockchain-based platform for MMA fans, that covers the complete fan experience. Fans get a complete overview of everything that is happening with their favorite MMA stars in real time. All the social media, news and scores are available on one site and fans can personalize what they want to follow. Besides that, fans get rewarded for their engagement through our tokenization system and get access to special fan experiences.

Our love of sport is unquestionable and our thirst to have lots of information at our fingertips about our favorite sports is rising. With all of the cutting-edge technology, it is surprising that the demand for accessing quality content efficiently is not being met. Every single day, sports fans consume news, social updates, photos, videos, stats, scores and more. Each day fans spend more than 34 minutes on a number of sites, visit many news outlets and social networks, and then a couple of scores apps just to stay updated. It's time consuming, inefficient and unsatisfying.

MMAON is becoming a global hub for all things MMA. It is and will be your go-to for all things connected to the sport. MMAON will be a news aggregator and a social network, with an integrated blockchain reward and ticketing system, allowing users (fans, fighters, organizations and sponsors) to buy and sell merchandize and other items on MMARKET.

CRYPTO PRICE TRACKER

MMAON is available on CoinMarketCap, the world's most-referenced price-tracking website for cryptoassets in the rapidly growing cryptocurrency space.

MMAON has made great strides in this space, with data and information now available on CoinMarketCap, CoinGecko, Blockfolio and Coinstats! This allows for existing MMAON Token Holders to monitor information, and brings more awareness to the project.

TICKETING

Ticketing is always at the forefront of the experience for promoters, athletes, organizations and fans.

MMAON and its new blockchain-based mobile ticketing solution will prevent the duplication and replication of tickets by “QR codes only being activated by Bluetooth once fans are in close proximity to the venue.

This leads to a more enjoyable experience with fans not left waiting in excruciating box office queues, or stresses over obtaining their ticket.

The use of the ticketing system will help curb paper consumption, provide fans with a better experience and ensure promoters can benefit from postage and box office cost cuts.

Counterfeit tickets and touting has ravaged the sports and entertainment industry for decades. With blockchain-based technology, MMAON puts the athletes, promoters and fans back in the driving seat, ensuring fairness during the ticketing process.

GYMS

Interact with coaches and teammates through chat functions.

Manage your gym membership, with payments, timetables and classes at your fingertips to improve coach-member relations and save time!

MMAON's betting features will all represent peer-to-peer selections, with fans able to put their MMAON where their mouth is!

Fans will be able to bet on a wider range of combat sports events than ever before, with regional/domestic bouts often difficult to wager on in current bookmakers. Fighters will also benefit, receiving a % of betting winnings directly into their wallets, another way to reward those who deserve it most.

MMAON's gamification and betting features are fully decentralised and will be transparent, showing fighters, fans and all stakeholders exactly how much is being wagered on each fight.

Markets that traditionally aren't available will become active to MMAON, with fans being able to bet, support and donate all through the medium of betting.

- **a new, better cryptocurrency is created;**
- **software developers make unexpected changes to how the cryptocurrency works;**

We will not be liable for the privacy or security of information, e-mail addresses, registration and any identification information (if applicable), disk space, communications, confidential or proprietary information, or any other content transmitted to us in any manner, or otherwise connected with your use of our Services, the Website or Platform. MMAON does not guarantee that the MMAON tokens shall be listed on any exchanges.

9.5. MMAON shall not bear any liability, whatsoever, for any damage or interruptions caused by any computer viruses, spyware, scareware, Trojan horses, worms or other malware that may affect your computer or other equipment, or any phishing, spoofing or other attack. We advise the regular use of a reputable and readily available virus screening and prevention software. 10. RISK DISCLOSURE

10.1. It is your obligation to peruse, comprehend and carefully consider or seek legal advice as to the risks described below in addition to the other information stated herein before deciding to access our Website and using our Services and our Products. If you access and/or use our Website, Service and Product you are accepting all the risks outlined in these Terms and other risks, not specified herein.

- **(a) Legal Risk concerning Security Regulation. There is a risk that in some jurisdictions MMAON tokens might be considered to be a security, now or in the future. MMAON does not give warranties or guarantees that MMAONs are not a security in any jurisdiction. Each MMAON token holder shall bear its own legal or financial consequences of MMAON tokens being considered a security in their respective jurisdiction.**

The legal ability of MMAON to provide MMAON tokens in some jurisdictions may be eliminated by future regulation or legal actions. In the event, it turns out with a high degree of certainty that MMAON tokens are not legal in certain jurisdiction, MMAON will based on its sole discretion either (a) cease operations in that jurisdiction, or (b) adjust MMAON tokens in a way to comply with the regulation should that be possible and viable.

It is your obligation to check if acquisition and disposal of MMAON tokens is legal in your jurisdiction, and by accepting these Terms you expressly agree and warrant that you will not use MMAON tokens should their use not be legal in the relevant jurisdiction.

There can be no assurance that governmental authorities will not examine the operations of MMAON and/or pursue enforcement actions against MMAON. Such governmental activities may or may not be the result of targeting MMAON in particular. All of this may subject MMAON to judgments, settlements, fines or penalties, or cause MMAON to restructure its operations and activities or to cease offering certain products or services, all of which could harm MMAON's reputation or lead to higher operational costs, which may in turn have a material adverse effect on the MMAON tokens and/or the development of the MMAON Services and software.

- **(b) Risk of malfunction of blockchain. Nobody can guarantee the Ethereum source code used by MMAON will be flaw-free. It may contain certain flaws, errors, defects and bugs, which may disable some functionality for Users, expose Users' information or otherwise. Such flaw would compromise the usability and/or security of MMAON and consequently bring adverse impact on the value of the MMAON token. Open source codes rely on transparency to promote community-sourced identification and solution of problems within the code.**
- **(c) Update of the Source Code. The Ethereum source code could be updated, amended, altered or modified from time to time by the developers and/or the community of Ethereum. Nobody is able to foresee or guarantee the precise result of such an update, amendment, alteration or modification. As a result, any update, amendment, alteration or modification could lead to an unexpected or unintended outcome that adversely affects MMAON tokens and/or MMAON operations or market value.**
- **(d) Internet transmission risks. You acknowledge that there are risks associated with utilizing an Internet-based Digital Assets, Products and Website including, but not limited to, the failure of hardware, software, and Internet connections. You acknowledge that MMAON shall not be responsible for any communication failures, disruptions, errors, distortions or delays you may experience when using our Services, Website, Product howsoever caused.**
- **(e) Cryptography risks. You acknowledge that there are risks associated with cryptography, such as code cracking or technical advances such as the development of quantum computers, could present risks to all crypto-currencies including our Product. This could result in the theft, loss, disappearance, destruction or devaluation of the Product. To a reasonable extent, MMAON will be prepared to take proactive or remedial steps to update the protocol underlying MMAON in response to any advances in cryptography and to incorporate additional reasonable security measures where appropriate. It is impossible to predict the future of cryptography or the future of security innovations to an extent that would permit MMAON to accurately guide the development of MMAON to take into account such unforeseeable changes in the domains of cryptography or security.**
- **(f) Development Failure or Abortion. MMAON is still in the process of development rather than a finished product ready to launch. Due to the technological complexity and difficulty that may be uncertain, unforeseeable and/or insurmountable, the development of all or some Services could fail or abort at any time for any reason.**

- **(g) Forking.** Ethereum is an open source project and supported by the community. The developers of MMAON do not lead the development, marketing, operation or otherwise of Ethereum. Anybody may develop a patch or upgrade of the source code of Ethereum's source without prior authorization of anyone else. The acceptance of Ethereum patches or upgrades by a significant, but not overwhelming, percentage of the Users could result in a "fork" in the blockchain of Ethereum, and consequently the operation of two separate networks and will remain separate until the forked blockchains are merged. The temporary or permanent existence of forked blockchains could adversely impact the operation and the market value of MMAON tokens and in the worst-case scenario, could ruin the sustainability of MMAON. While such a fork in the blockchain of Ethereum would possibly be resolved by community-led efforts to merge the forked blockchains, the success is not guaranteed and could take long period of time to achieve.
- **(h) Risk of unfavorable regulatory action in one or more jurisdictions.** Blockchain technologies have been the subject of scrutiny by various regulatory bodies around the world. MMAON tokens could be impacted by one or more regulatory inquiries or actions, including but not limited to restrictions on the use or possession of MMAON tokens, which could impede or limit their existence, permissibility of their use and possession, and their value.
- **(i) Risk of theft and hacking.** Hackers or other groups or organizations may attempt to interfere with your third-party wallet, the Website or the availability of MMAON tokens in any number of ways, including without limitation denial of service attacks, Sybil attacks, spoofing, smurfing, malware attacks, or consensus-based attacks.
- **(j) Risk of mining attacks Ethereum blockchain, which is used for the MMAON tokens, is susceptible to mining attacks, including but not limited to double-spend attacks, majority mining power attacks, "selfish-mining" attacks, and race condition attacks.** Mining Attacks, as described above, may also target other blockchain networks, with which MMAON tokens interact with. Any successful attacks present a risk to MMAON tokens.
- **(k) Risk of loss of value and uninsured losses.** Value of MMAONs may fluctuate and you may suffer loss in value of such acquired MMAON tokens and lose all of the value. In addition to the loss of value risk, MMAONs are entirely uninsured and are unlike bank accounts or accounts at some other financial institutions.
- **(l) Risk related to your Private Keys.** Loss of private key associated with your digital assets wallet will result in loss of MMAON tokens held there. You understand and agree that MMAON shall not be responsible for any such losses.
- **(m) Project Completion.** The development of some of the MMAON Services and software may be abandoned for a number of reasons, including, but not limited to, lack of interest from the public, lack of funding, lack of commercial success or prospects, or departure of key personnel.
- **(n) Unanticipated risks.** Cryptocurrencies and blockchain technologies are new and untested technology an in addition to the risk outlined in these Terms, there are also unforeseeable risks that may materialize as unanticipated.

10.2. You acknowledge, agree and warrant that you have been warned of the potential risks involved by using our Services, Website, Ecosystem and Product and other relevant technologies mentioned herein as well as that there may be other risks involved, which are not specified herein and that you fully accept such risks.
